The "Doomseer" is only available from Chapterhouse Studios. The unpainted 28mm scale pewter model consist of 5 pieces - body
and 4 variant arms. A 25mm slotted base is included.

This highly detailed resin conversion kit will convert the normal Games Workshop Imperial Guard Chimera (or any other vehicle that shares that chassis) into a Rapid Response Wheeled vehicle.

Each kit consist of 9 highly detailed resin pieces, Games Workshop Chimera (or other vehicle that shares same hull) required to assemble as seen.

Shown assembled model uses Games Workshop Imperial Guard Chimera which is not a Chapterhouse Studios product.

Designed by Jeffrey Nagy.
Some things in the work, we are continuing to expand our "space elf" line that many players may enjoy. If you have ever wondered what male Eldar Howling Banshees may look like in a warped universe, you may like what is in the works here. I think a little more work is due for the concept. The sculptor has dubbed them "Hell Hounds".

The Eldar army is an army of 'Space Elves'.

A howling Banshee is a type of Eldar warrior.

Eldar Howling Banshee model.

Howling Banshee Warriors have:
• Eldar conical style helmet with hair coming out of the back
• Segemented armour plates over a bodysuit
• Grid-like mouth
Long loin cloths held up by circular stones
We are also releasing a much-needed (in this humble hobbyist opinion) TRU-Scale Conversion kit for the Games Workshop Space Marine Storm Raven. This resin kit expands the hull of the Storm-Raven making it much longer and actually makes it realistic to think the Storm-Raven can carry the troops it is supposed to carry. We also included a grapple for carrying dreadnoughts (easily magnetized if you want to actually mount your walkers on the transport) as well as a hatch to cover the turret mount if you are inclined. MSRP $17.50 for the 9-piece resin kit. Availability in 2 weeks.

Next up are three smaller conversion kits. First is a set of five resin "gun-halberds" for 28mm scale models (or Heroic Scale). These weapons are composed of a power halberd that incorporates a bolter at the head. These may be a good match for "Grey Knight" players or for those custom made custodes models. Each 5 weapon set MSRP is $6.00.

Games Workshop sells Halberds

'Custodes' are the personal guard of the Emperor of Mankind. Games Workshop does not yet sell miniatures of Custodes but they are depicted in artwork in *Horus Heresy: Collected Visions* ©Games Workshop Limited 2007. Custodes are armed with halberds with built in 'bolters' at the head.

Grey Knights are a Space Marine Chapter that fight using Halberds.
**Conversion Beamer Servo Harness Kit for Space Marine Model**

**Price:** $10.00

A 'Conversion Beamer' is a Space Marine weapon of great power and can be used as a weapon option for a Space Marine Master of the Forge. The conversion beamer was included in *Codex Space Marines* ©Games Workshop Limited 2008, p70. Chapter House released their product after the Codex description but before Games Workshop's Conversion beamer models were released.

This resin kit sculpted and designed by Stephen Smith consist of 5 resin components. The kit fits on a standard Games Workshop Space Marine model. The design of the servo-backpack and conversion beamer weapon allow the model to hold the weapon under-slung on either arm.

Next we have a conversion-beamer and servo arm backpack set that is sculpted to work seamlessly with Games Workshop Space Marine models. If you are an aspiring tech-marine and are tired of trying to put together your very own conversion-beamer, this kit may save you some headaches. Consisting of 4 resin pieces, this easily poseable and magnetized kit MSRP's for $9.50.

MASTER OF THE FORGE

The Master of the Forge is the Chapter's most senior Techmarine, charged with the maintenance of the Chapter's war sacred machines and lighter vehicles, such as land raider tanks and Rhinos. His knowledge of the arcane sciences, and his expertise in the construction and repair of combat machinery, is unparalleled. His name, Valthex,Astral Claws, is remembered across the length and breadth of the universe, and even among the war machines of other Chapters.

Such expertise, and perhaps cunning, skill permits him to keep the masters of the forge in working order. Even in the face of battle, his deft hand ensures that the machines continue to function as they should.

This valour not only helps to keep the forge that great workhorse of the Chapter's power: the Adeptus Mechanicus. His wisdom and experience are invaluable in all matters, and his Wealth of Praise is a testament to the Chapter's esteem for him.

As the forge dies speak, it is in clipped and monotonous tones, coldly and methodically, precise in detail and delivery.

Not all Space Marine Chapters have such a Master of the Forge in their ranks. Some, such as the Makari, the Planet of Orpheus and the Astartes, embrace the teachings of the Techmarines with enthusiasm and, in some cases, even consider them to be their spiritual leaders.

As in all Chapters, the Master of the Forge is a man of great influence and respect. His words are listened to with care and his advice is sought after. The Grey Knights, in particular, have a long tradition of working closely with their Masters of the Forge, and this relationship has been a key factor in their success.

It has been a little while since our last release. We have been hard at work at Chapterhouse Studios, looking for the next toy to release for the Heresy Era 40k players. I am happy to show the Javelin Class Jet Bike.

This shows a Space Marine Jet Bike from the Horus Heresy era.

Space Marine Bike Sprue
(*2034_Jet Bike Squad / Eric Ren / 2003*)
The bike is copied from the artwork in *Horus Heresy: Collected Visions* using elements from the current Space Marine Bike model sold by Games Workshop.
This multi-part customizable resin kit contains 8 resin components. We have included 2 engine options, this will allow you to make a regular and a scout version of the Javelin Jet Bike. We also included 2 different bolt gun mounts that will allow the addition of different special weapons (plasma, melta, grenade launchers etc). These conveniently fit our combi-weapon conversion bits.

Also included in the kit are a set of legs and arms that will allow you to use other companies torsos and heads to model a rider. Flight stand will be included.

Our target price for the Javelin Jet Bike is $14.00 and the release will be on November 5th.

Kit is shown with Chapterhouse Studios helmets and torso (not included).

Artwork – Distinctive front grill in large straight vertical lines with the chassis protruding underneath out in front of the bike. Two boltguns on top of the front of the bike. Two exhaust pipes on the side of the bike.

Bike Model (See sprue comparison below) – the tank (section below handle bars) has been copied as the shape, trim and circle decoration are the same. Three tubes lead into engine below the tank. The Space Marine arms are identical in design.

The model riding the bike copies several key features of a Space Marine:

- Leg Armour
  - Flared with angled edges to match width of boots
  - Cut at bottom of leg around shape of boot
  - Joints at hips and back of knee are joined by grooved sections

- Shoulderpads
  - Covering from start of shoulder to above the elbow
  - Large border around outer edge
  - Large round studs on the shoulder pads are a feature of Mark V Space Marine armour worn during the Horus Heresy period.

The main element of the Games Workshop heresy jet bike design that is missing from the Chapter house model is the swooping eagle design on the front. The concept sketch shows the swooping eagle design being removed from the bike.

<td>This is a single pewter combat or storm shield for 28 mm figures. This oval shaped shield has an image of a grim reaper or dark angel standing on a pile of skulls.
